

The Pilgrimage Experience

Along the El Camino de San Antonio Missions Pilgrimage Route

"I made this pilgrimage for my son. With every mission destination, I felt a deeper connection with God, I wasn't expecting to be so overcome with emotion. It was so peaceful walking by the water and feeling God's presence. I'm so glad I did this pilgrimage and made room for the Holy Spirit to speak to me." - Nubia

"The heart and soul meet on San Antonio Camino. I felt so much peace, walking along the river and visiting the missions" said Norie. "I was spiritually renewed and physically prepared for the Camino in Spain. Walking both, I saw a unique connection between the old world and the new." - Norie

"Our experience turned out to be so much richer than we expected and quite humbling...we were particularly aware that we were praying in sacred places where others had worshipped for centuries and continue to do so to this day." - Mark and Suzanne

"The Mission Churches no longer felt like archeological digs but were vibrant with a living, palpable Faith. We encountered the gift of the Mission Church missionaries, Christ, and one another. It was truly a Catholic/Universal experience." - Jaclyn

"I was struck by how it offered informative visits to all the San Antonio Missions and led us to prayer and Mass in striking chapels and churches. The dedication to spreading the faith that built the Missions and the centuries of Catholic life and devotion to which they bear witness was deeply inspiring." - Fredrik
